TWELVE DOLLARS ASKED

For Tobacco Crop of 1911 Best Grade of Leaf, and \$5.00 for Trash

A special from Owenboro says; American Society of Equity and the Home Warehouse company, which was held behind closed doors, came to a close after fixing the price which would be demanded for the 1911 pooled crop of tobacco. The prices fixed were \$12 for the best grade of leaf and lugs; \$10 for the third grade of leaf and lugs and \$8 for the non-descript and \$5 for all trash.

A resolution offered by Frank K. Moseley was adopted requesting that all of those who have not sold their tobacco to unite with the society in the price as fixed by it.

The officers of the society claim that they have about 10,000,000 pound of tobacco pooled with their organization, and while the prices are higher than the 1910 crop sold for, this is due to the fact of the superior quality of tobacco, and of the reported shortage throughout the district.

AN APPRECIATION BY THE KENTUCKY MINE OWNERS ASSOCIATION

Expressed on the Life and Works of John B. Atkinson, President of the St. Bernard Mining Co.

At a special meeting of the Kentucky Mine Owners' Association, representing all the operators of Western Kentucky, held this the 5th day of October, 1911, at the Seelbach Hotel, in Louisville, the following expression of appreciation was unanimously adopted.

When a man has so lived that the common verdict is that he has not lived in vain, and his life works remains as a living monument of his individual genius, the conformation to the general practice of expressing our sympathies and sense of loss when any such member of the public body surrenders to the last enemy, the propriety of this meeting becomes more appropriate and necessary far above the average of such meetings; because in the death of John B. Atkinson, President of the St. Bernard Mining Company, we have not only lost a pioneer of the coal industry in Western Kentucky, but its leader and dean.

Mr. Atkinson stood not only first in years of service but first in progress in the art of mining; first in development and production; first in freedom from strikes, and therefore, first in successful operation. Such premises involved the necessary corollary of being first as a master among men, because his success could not have been secured without the cooperation of associates and employees in carrying out his life's ideals. In this respect we can well say that Kentucky's greatest coal operator has fallen, but in his death his memory will long serve as a goal for others of us, to treasure and emulate. Because his success consisted of thorough mastery of the science and art of mining, coupled with a fellow feeling that endeared all who came in contact with him.

Truly he was a man among men, and this Association does most sincerely express to the bereaved family its great sense of our neutral loss.

WONDERFUL RECORD FOR LOUISVILLE & NASHVILLE

Have Never Milled a Passenger Between Henderson and the Cumberland River

Col. L. W. Rogers, who for a number of years ran the Guthrie Hotel in conversation with a friend a few days ago, said "the L. & N. to my certain knowledge has never killed a passenger between Henderson and the Cumberland river." This covers a distance of over 100 miles and is a wonderful record for a railroad running 15 passenger trains daily and carrying hundreds of passengers. Perhaps this record is one reason why the L. & N. is known as "The Old Reliable" and the majority of passengers prefer it to other lines.

"Short" fares are asserted to have been the system worked by the conductors. Some conductors are reported to have pocketed as high as \$2,000 a month.

In the game of Baseball played here Sunday afternoon between Earlington and Madisonville, Earlington won with a score of 11 to 3 in their favor. The Madisonville Mud Slingers were far outclassed and were not in it from the start. Although the weather was unfavorable quite a crowd gathered to witness the game and the gate receipts were satisfactory. There will likely be another game arranged between the two contending teams in the near future.
